SI-10

In-wall Subwoofer

Applications:

Typically, freestanding boxy subwoofers perform well, but don't really complement an in-wall home theater installation. With the SI-10 in-wall subwoofer we've taken the performance of our legendary TS-10 freestanding subwoofer and hidden it in the wall. The SI-10 features a non-powered 10-inch, long-throw aluminum cone subwoofer inside a rigid MDF (medium density fiberboard) cabinet which fits in-between standard wall studs. The only exposed part of the subwoofer is the black or white cloth grille.

Technical Information:

- Model Name/Number:** SI-10
- Primary Use:** In-wall Subwoofer
- Series:** Signature Series
- System Type:** Bass Reflex
- Frequency Response:** 30Hz — 200kHz ± 3dB
- Sensitivity:** 86dB (2.83 Volts @ 1 Meter)
- Recommended Power:** 100-200 Watts
- Drive Units:** (1) 10" Aluminum Cone Subwoofer
- Impedance:** 4 Ohms
- Cabinet Material:** MDF (Medium Density Fiberboard)
- Grille:** Black or White Cloth
- Video Shielding:** Yes
- Finished Dimensions:** 14" W x 56" H x 3½" D
- Baffle Dimensions:** 14¼" H x 12¼" W
- Weight:** 56 Lbs.
- Warranty:** 5 Years*

*Warranted for 5 (five) years from date of purchase to be free from defects and workmanship. For more information see your RBH dealer.
