

SIGNATURE SERIES

IN-WALL SPEAKERS AND SUBWOOFERS

SI-1010

IN-FLOOR/IN-CEILING SUBWOOFER

The SI-1010 is a dual 10-inch non-powered subwoofer designed specifically to be installed in-ceiling or in-floor. The SI-1010 features smart protection circuitry to prevent damage to the 10-inch aluminum cone subwoofers if ever over-driven. Appearing as a commonplace heating vent, the SI-1010 is the definitive subwoofer for larger home theaters, listening rooms or anywhere inconspicuous, yet powerful, high-fidelity bass is needed. The SI-1010P includes an RBH SA-500DSP component-style subwoofer amplifier.

RBH Sound Signature Series in-floor or in-ceiling subwoofer is designed and engineered to provide conventional, freestanding speaker performance while inconspicuously installed into the floor or in-ceiling. Featuring our proprietary, ultra-rigid aluminum cone woofers offering unsurpassed acoustic detail and accuracy. To better coordinate with many décors, grilles are available in either black or white.

The SI-1010 model is available with separate component-style subwoofer amplifier (SI-1010P)
