## REFERENCE DUAL 12" SUB SUBSONIC POWERHOUSE

HDF construction

2400 Watt amp with programed DSP options

XLR inputs  
\* with RCA adapter

12" black or silver aluminum

Front ported for cabinet installation

If YOU want ultimate bass, but don't need a piano black cabinet, the Reference series sub is your answer. It provides the bedrock slam and top RBH performance without the frills.

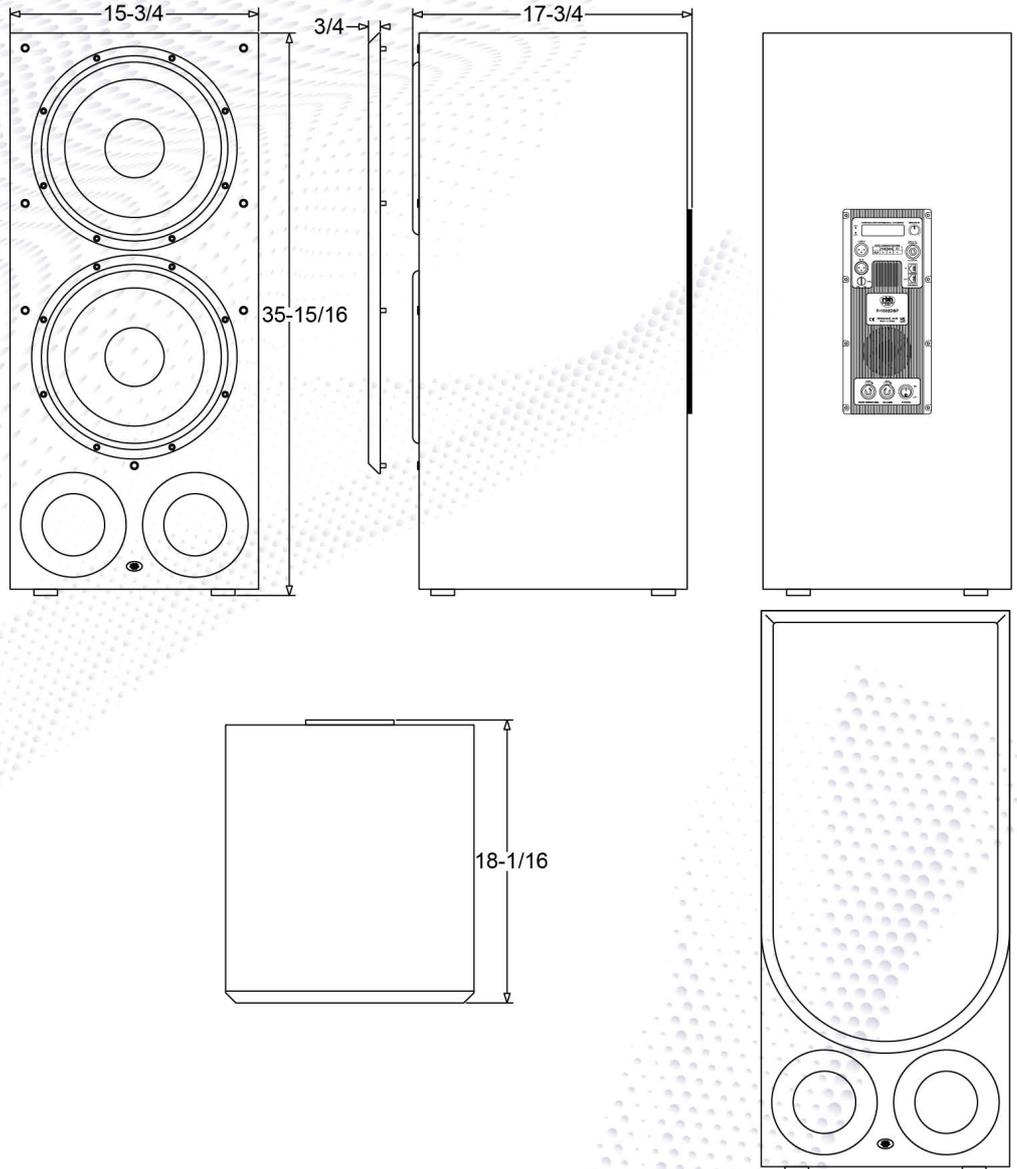

Whether passive, or powered with a 2400 Watt DSP amp, the twin 12" reference aluminum drivers and dual front ports are the perfect combination for the deepest bass possible.

# Reference 1212P Reference 1212N

Built to deliver unfathomable amounts of extremely deep and powerful bass with precise control, the Reference 1212P powered subwoofer is not for the faint of heart. The 1212P features two reference 12-inch long-throw aluminum cone drivers coupled with a 2400 Watt class D amplifier. Designed for larger home cinema and listening environments, the 1212P delivers an incredible sonic and tactile experience to every movie or music listening session.

The Reference 1212N has all of the perks of the 1212P with the added benefit of customizing your experience with the amplifier of your choosing. Whether you go all out with our DA-2602DSP amplifier or provide your own, the power is in your hands.

## Reference Freestanding

- Available in black or silver, signature or reference aluminum drivers

- Provides timbre matched options for multi-channel sound across all freestanding, bookshelf, on-wall and in-wall products in the SF, SV or SI-Series

- Individually hand assembled and tested. Cabinet made in USA of High Density Fiberboard (HDF)

\*Limited Warranty 10 years cabinet and components, 3 years amp (with registration) from date of purchase to be free from defects and workmanship. For more information contact your RBH dealer or check our website.
