

ARCHITECTURAL SERIES

IN-CEILING AND IN-WALL SPEAKERS

A-414

IN-WALL SPEAKER

A great dual 4-inch in-wall speaker for budget home theaters and listening rooms, the A-414's slim design allows for horizontal installation between 16-inch on-center wall framing. The two Poly Graphite cone 4-inch woofers and 1-inch silk dome swivel tweeter provide faithful and articulate sonic reproduction. The A-414 is also video shielded, allowing it to work as an in-wall center channel next to nearly any television or monitor without causing magnetic interference.
