

# A-616

## 2-way LCR In-wall Loudspeaker

**Redefining the way  
you experience sound.™**

### Applications:

The A-616 is the perfect speaker for budget home theater systems or sound rooms where high performance is still a necessity. This speaker incorporates all the advantages of the A-610, yet features a second 6½-inch woofer. The A-616's design incorporates high power handling and quick transient response; this provides high definition in low bass frequencies. The A-616 can be used for all channels of a home theater system due to its woofer/tweeter/woofer design.
