

AC SERIES

A-10S POWERED SUBWOOFER

THIS PRODUCT WAS DISCONTINUED JUNE 2004

“Slim”. “Attractive”. “Centerpiece”. These aren’t words often used to describe a subwoofer, but the A-10S is not your typical subwoofer. The A-10S features a 10-inch woofer capable of delivering room-shaking bass down to 30-Hertz utilizing an onboard, highly efficient 150-watt amplifier. All that power is wrapped up in a sturdy, yet curvaceous cabinet that begs to be showed off out in the open—not just tucked into a corner.
