SA-200 SUBWOOFER AMPLIFIER

THIS PRODUCT WAS DISCONTINUED JUNE 2013

RBH Subwoofer Amplifiers provide the power needed for an intense, pulse-pounding home theater experience. The RBH SA-200 amplifier makes it easy to add deep, clean and powerful bass to any audio system. This amplifier is easily incorporated into any audio or home theater system and are packed with features designed to make the integration of subwoofers or bi-amplified tower speakers as seamless as possible. Packed with the same features as the SA-400, the SA-200 is designed for subwoofers and tower speakers in smaller audio and home theater systems. Delivering 200 Watts of continuous power, the SA-200's features and connectivity make it a must-have for any audio or home theater system.

SPECIFICATIONS

Model Name:	SA-200
Amplifier Type:	Discrete Class A/B Subwoofer Amplifier
Power Output:	200 Watts RMS @ 4 Ohms
Distortion (THD):	<.04% @ 1 Watt
S/N Ratio:	>82dB (Without Filter)
Line Level Input Impedance:	45 Kohms
Speaker Level Input Impedance ...	200 Ohms
Line Level Input Sensitivity:	80 mV
Speaker Level Input Sensitivity ...	2.8V
Crossover Slope:	12dB/Octave
Crossover Freq. Range:	40-180Hz \pm dB
Auto Turn-on Sensitivity:	2 mV @ 50 Hz
Frequency Response:	20Hz-40kHz \pm 3dB (filter off) 15Hz-40kHz \pm 3dB (boost on)
Boost:	4dB @ 25Hz
Damping Factor:	>200
Cabinet Material and Finish:	Black Metal Alloy
Dimensions (w rack mount ...)	19" W x 4" H x 14" D (482mm W x 101mm H x 355mm D)
Dimensions (w/o rack mou ...)	17-3/4" W x 4" H x 14" D (450mm W x 101mm H x 355mm D)
Rack Mount Holes (horizon ...)	18-3/4"(476mm) (center to center)
Rack Mount Holes (vertical):	3" (76mm) (center to center)

Weight: 17 lbs. (7.71 kg)
Warranty: 1 year
