C-4x

LCR/CENTER CHANNEL SPEAKER

With an extra 4-inch woofer in a woofer-tweeter-woofer configuration, the compact C-4x can easily and discreetly be placed atop a television or entertainment center to superbly perform its center channel duties. Due to its design, the C-4x can also be used throughout a home theater system and also works very well for two-channel music when combined with either an S-8 or S-10 powered subwoofer.
