

E3 SERIES

SPEAKERS

E3b

MINI-BOOKSHELF SPEAKERS

The E3b mini-bookshelf speakers feature an innovative design that delivers big, spacious sound regardless of their very small size. These aren't your typical Home-Theater-In-a-Box (HTIB) speakers. A true 2-way design, the E3b's 3-inch aluminized polygraphite woofer and 3/4-inch nano-silk dome tweeter work together to deliver nearly full-range performance due to trickle down technology from our larger, award-winning speaker designs. The E3b's design allows for higher power handling than competing designs, giving you the ability to crank up the volume and really enjoy your favorite movies and music.

3.25 lbs. (1.47 kg.)

WARRANTY:

5 Years*

The combination of polygraphite with our specialized aluminum coating adds strength and stiffens the woofer to prevent the cone from flexing under higher demands. This cone treatment, proprietary to EMP, reduces audible distortion, and helps the E3b provide the most accurate audio reproduction it possibly can. The 3/4-inch nano-silk tweeter truly brings out the brilliance in any movie soundtrack or song. The E3b's are available in a white or black finish, and are the perfect complement to the E3c compact center channel speaker.

The E3b mini-bookshelf speakers are an integral part of the Cinema 5 and Cinema 7 compact home theater systems as pictured above.
