

EMP TEK SERIES

EF50T TOWER SPEAKERS

THIS PRODUCT HAS BEEN DISCONTINUED

The EF50T Tower speakers are a 2-way, high performance speaker. The ultra slim design of the EF50T tower speakers allow them to reside in a room without taking up too much space. The EF50T speakers come standard with a pewter colored faceplate. However, this faceplate can be removed and replaced with a interchangeable faceplate available in rosewood, cherry or black sold separately. This adds a whole new level of flexibility when it comes to matching the speakers with the decor of the room.
