High Performance Home Audio
Redefining the Way You Experience Sound™

By activating functions with the press of the button, the EP2 earphones become virtually hands-free, no fumbling for your phone to answer a call; just click the EP2's control button, and enjoy the best sounding phone call you've ever heard! The module allows you to answer and end calls, and depending upon your phone's capabilities, the button can be used to control music and video playback by single- or double-pressing the button. Regular earbuds, like the ones that come with your player, just can't match the EP2's performance, control or noise isolation capabilities!

The EP2 earphones deliver a wide sound stage free from outside noise and interruptions. Aluminum housings, premium materials, strict tolerances, gold connector jack and a cloth woven cord for comfort and less tangle are some of the features of the EP2. The RBH reputation for quality is evident in the construction, attention to detail and clear sound. These durable and stylish earphones come with a protective carrying pouch, a cord clip, Comply™ Foam Tips, and large, medium and small silicone ear cushions for a comfortable and personalized fit. The EP2 feature the use of a mic allowing you hands free functionality.

Looking for earphones without a microphone and function control features check out our EP1 Noise Isolating Earphones.

PACKAGE CONTENTS
