

# H2 BLUETOOTH STEREO HEADPHONES

---

THIS PRODUCT HAS BEEN DISCONTINUED  
MAY 2019

RBH Sound has collaborated with i.Tech to bring you the ProStereo™ H2, the first in-ear headphone featuring 24 bit high definition sound through Bluetooth® connectivity using either Qualcomm's aptX-HD™ or Sony's LDAC™ technologies. The H2 also uses a built-in AKM+ 32 bit DAC/Amplifier with a 384kHz sampling rate to reproduce the audio signal with the highest resolution possible no matter what Bluetooth® audio codec is being used by your connected device. The result is the best sound attainable in a Bluetooth® in-ear headphone. You'll be amazed at the detail and dynamics of the full range music produced by these in-ear monitors. The RBH edition of the ProStereo™ H2's includes specifically fitted Comply™ foam and SpinFit® silicone tips that extend frequency response and improve isolation and comfort for an unparalleled listening experience.
