EARPHONES AND HEADPHONES

HP-1B

BLUETOOTH® STEREO HEADPHONES

The RBH HP-1B Bluetooth® headphones deliver a level of audio performance not typically associated with Bluetooth® headphones. In fact, the HP-1Bs sound better than many of the wired headphones on the market. Featuring Bluetooth® 4.0, and aptX® technologies, the HP-1B headphones provide CD quality sound from your bluetooth source. Simply pair your Bluetooth device to the HP-1Bs and you're set for hours and hours of uninterrupted high fidelity listening.

- Durable storage case for on-the-go protection and convenience.
- Includes USB charger and cable.
- Headphones can be charged while using the Bluetooth function.

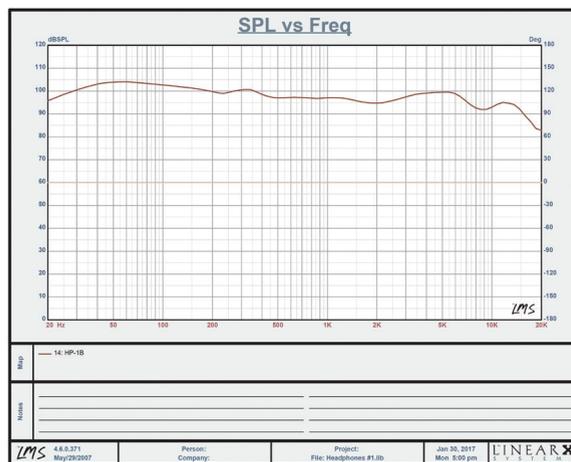

HEADBAND TOO TIGHT?

The headphones can easily be adjusted to “relax” the clamping force. Simply flex the headphone band in the opposite direction and hold it in that position for about 10 seconds. You may need to do this several times to get the band to relax to the point where the fit is the most comfortable for your head. The head band will also naturally relax a little over time. You can always tighten it by flexing the headphones in the clamping direction.

HEADPHONE RESET

Reset Mode (hardware reset): Connect the headphones to computer via Micro USB cable. Simultaneously press Volume+ / Volume- /Multi-function for 5 seconds to empty paired device list. When LED flashes blue and red for few seconds the headphones have been reset.

FREQUENCY RESPONSE GRAPH

PACKAGE CONTENTS

Includes 1 pair of HP-1B headphones, protective carrying case, user's manual, 1/8-inch to 1/4-inch phono jack plug adapter, and two detachable cables: (1) 3.9-foot (1.2m) deluxe black cable with controller and microphone and (1) 3.9-foot (1.2m) High Resolution Cable.
