

66-SE/R

ON-WALL SURROUND SPEAKER

Designed specifically as a reference level surround speaker, the 66-SE/R features the unique bi-/di-polar configuration of its Signature Series siblings, the 66-SE and 44-SE. In-phase are dual 6½-inch aluminum cone woofers providing rich, deep bass and mid-range frequencies, while out-of-phase dual 1-inch silk dome tweeters provide crystal clear, diffused sonic accuracy. The benefit of this design is the ability to reproduce high performance surround channel information from a position which cannot easily be located by the ear. This model is only available in custom veneers.
