

# 8300-SE/R

TOWER SPEAKER

The perfect speaker for mid- to large-sized home theaters and critical listening rooms, the 8300-SE/R features three 8-inch aluminum cone subwoofers, two 6½-inch fixed phase plug aluminum cone woofers, and a 1-inch soft dome liquid-cooled Scanspeak silk dome tweeter. With its reference-level upgrades, and extensive internal bracing to eliminate standing waves and cabinet resonance, the 8300-SE/R provides increased power handling and improved resolution, resulting in superior sonic clarity. The 8300-SE/R can be bi-amplified through the use of its dual large 5-way binding posts. Separately amplifying the three subwoofers on each speaker with a subwoofer amplifier like the SA-400 can effectively eliminate the need for a separate subwoofer. Shown here in macassar ebony veneer, this model is only available in custom veneers.

Redefining the Way You Experience Sound™

# 8300-SE/R

## TOWER SPEAKER

## DIMENSIONS

*Cabinets are constructed of ¾-inch high density fiberboard and feature an extensive internal bracing system which virtually eliminates cabinet resonances. This method of construction reduces sound coloration. The thickness of the front baffle also prevents excess acoustic radiation.*

## MATCHING SPEAKERS

**BOOKSHELF:** 61-SE/R, 661-SE/R

**CENTER CHANNELS:** 66-SE/R, 6100-SE/R, 661-SE/R

**SURROUND CHANNEL:** 66-SE/R

**TOWER:** 1266-SE/R

**SUBWOOFER:** 1010-SE/R, 12-SEP/R
