

T-3/R

TOWER MODULAR SPEAKER

The T-3/R is the epitome of the Signature Series T System. Encompassing the best of what this system has to offer, the towering T-3/R has the capability of knocking you back in your seat, yet it can reproduce even the softest of whispers. Dual 1010-SE/R subwoofer sections are used to provide system flexibility, allowing for both full-range and LFE configurations. The T-1/R faithfully reproduces everything it is sent. A must-have for the audio and home theater connoisseur, the T-3/R is definitely not a speaker for the faint of heart. This model is only available in custom veneers, shown here in maple pommele veneer.

DIMENSIONS & CONFIGURATIONS

FRONT VIEW

SIDE VIEW

The mid-range and bass drive units of the T System are of the highest quality and feature cutting-edge aluminum cone technology. The two 10-inch long-throw subwoofers deliver plentiful amounts of low frequency information. Mid-bass through lower treble frequencies are accurately reproduced through four 6½-inch woofers offering extended dynamic range and lower distortion. Three 1-inch silk dome high performance tweeters provide generous crystal clear high frequencies with unbelievable detail and accuracy. The woofers and tweeters are arranged in a dispersion-averaging alignment that focuses the sound at the listening position for unbelievable imaging. Working in harmony, all drive units are governed by an extensive filter network to convey the sonic realism you'd expect from this reference-grade speaker system.
