

# SX-44/R

## ON-WALL SURROUND SPEAKER

The SX-44/R surround channel speaker employs dual, in-phase 4-inch reference aluminum cone woofers and dual out-of-phase 1-inch reference silk dome tweeters. The bi-/di-polar combination results in articulate yet diffuse high frequencies and powerful bass. This combination is designed to prevent the pinpointing of its exact location by your ear. The SX-44/R is designed to be easily installed on a wall using its integrated keyhole brackets, and is exactly what you would expect from a truly distinguished home theater surround speaker. The SX-44/R is the answer to super surround channel performance without the large footprint.
