

SX-6300

TOWER SPEAKER

The SX-6300 tower speaker provides big sound from its small profile, with its 3-way driver complement of three 6½-inch aluminum cone subwoofers, two 4-inch aluminum cone woofers, and a 1-inch silk dome tweeter, the SX-6300 delivers all the impact and clarity of a much larger speaker. The bass reflex cabinet of the SX-6300 helps it to deliver unrivaled detail and accuracy; not only is it more than capable of belting out any explosion, it can also flawlessly reproduce even the softest musical note with ease. The SX-6300 can be bi-wired or bi-amplified via the high quality, dual 5-way binding posts to further enhance its performance.
