

SX-6300/R

TOWER SPEAKER

Bestowing big sound from its small profile is the SX-6300/R's specialty. Three 6½-inch aluminum cone subwoofers, two 4-inch reference aluminum cone woofers, and a 1-inch reference silk dome tweeter work together to deliver first class detail and accuracy. The SX-6300/R has the capability of accurately reproducing the loudest explosions as well as the softest whispers, making it the perfect tower speaker for high fidelity music and home theater systems. To optimize its performance, the SX-6300/R can be bi-wired or bi-amplified via the high quality, dual 5-way binding posts.
