

SX-8300/R

TOWER SPEAKER

A true performer, the flagship SX-8300/R tower speaker offers the utmost level of perfection in every aspect. The SX-8300/R features RBH Sound's award-winning aluminum cone technology and reference-level upgrades to let its listeners hear and emotionally connect with their movies and music the way the director or artist intended. Three 8-inch subwoofers, dual 6½-inch mid-range woofers and a 1-inch silk dome tweeter work in complete harmony to provide amazing full-range performance. Further enhancing the performance of the SX-8300/R's 3-way, bass reflex design are dual rear-firing flared ports and dual 5-way binding posts. The dual 5-way binding posts permit the SX-8300/R to be bi-amplified with a subwoofer amplifier such as the SA-400, allowing the SX-8300/R to push the boundaries of technology, style and performance.
