

# SX-T1

## LEFT/RIGHT FRONT MAIN SPEAKER

A dispersion-averaging alignment combined with RBH's aluminum cone technology is the primary reason behind the unbelievable performance of the SX-T1.

Inheriting the award-winning Signature Series T1's driver configuration, the mirror-image SX-T1 focuses the sound at the listening position for incredible imaging. The SX-T1 employs four 6½-inch aluminum cone woofers and three 1-inch silk dome tweeters and can be used alone or atop a SX-1010 subwoofer. When combined with a SX-1010 subwoofer, the result is nothing short of an astounding acoustic experience. When the SX-T1 is paired with the SX-1010, the system is capable of handling copious amounts of power while delivering paramount fidelity and performance in even the largest home theater or listening room.
