

SX-T1/R

LEFT/RIGHT FRONT MAIN SPEAKER

The SX-T1/R employs four 6½-inch reference aluminum cone woofers and three 1-inch reference liquid-cooled silk dome tweeters in a dispersion-averaging alignment for the ultimate in sound quality and performance. The SX-T1/R's driver configuration focuses the sound at the listening position for incredible imaging. Available as a mirror-imaged pair, the SX-T1/R can be used alone as a freestanding speaker, or paired up with a SX-1010/R subwoofer to create an amazing acoustic experience. When the SX-T1/R is paired with the SX-1010 it is capable of handling large amounts of power while delivering the best fidelity and performance in even the largest home theater or listening room.
