

SX-T3/R

LEFT/RIGHT FRONT MAIN SPEAKER

The Signature SX Series flagship SX-T3/R is the epitome of perfection in RBH Sound's modular T System. Consisting of dual SX-1010/R reference grade subwoofers perfectly mated with an SX-T1/R, the SX-T3/R is definitely not a speaker system for the faint of heart. While the SX-T3/R is more than capable of reproducing even the softest of whispers, it also carries enough punch to knock you back in your seat. Just like its smaller sibling, the SX-T2/R, reference grade components are utilized throughout the SX-T3/R's design to make it the highest performance speaker in RBH Sound's lineup. Encompassing the best of what the T System has to offer, the towering SX-T3/R's configuration options allow for both full-range and LFE configurations for the SX-1010N/R subwoofers, making it a must-have for the high-end audio and home theater connoisseur. The SX-T3/R is currently available in black oak with a satin front baffle.

SX-T3N/R: A pair of SX-T3N/R's consists of two SX-T1/R's, four SX-1010N/R's, T System clamping brackets and feet.

SX-T3P/R: A pair of SX-T3P/R's consists of two SX-T1/R's, four SX-1010N/R's, T System clamping brackets, feet, and four SA-400 subwoofer amplifiers (one amplifier to power each SX-1010N/R).
