

SX-1010P

POWERED SUBWOOFER

The SX-1010P is the result of the successful fusion of dual 10-inch aluminum cone woofers with an integrated 350 Watt RMS power amplifier. The SX-1010P boasts overwhelmingly deep and stalwart bass with clarity not typically found in subwoofers capable of such high output levels. The reference version of the SX-1010P, the SX-1010P/R boasts an additional 150 Watts for a total continuous power of 500 Watts RMS. All that power is fed into dual 10-inch reference long-throw woofers to make the SX-1010P/R the most powerful and highest performance subwoofer that RBH manufactures.
