

SX-1212P

NON-POWERED SUBWOOFER

The SX-1212P is the result of the successful fusion of dual 12-inch aluminum cone woofers with an integrated 500 Watt RMS power amplifier. The SX-1212P boasts overwhelmingly deep and stalwart bass with clarity not typically found in subwoofers capable of such high output levels. The reference version of the SX-1212P, the SX-1212P/R boasts a total continuous power of 2400 Watts RMS. All that power is fed into dual 12-inch reference long-throw woofers to make the SX-1212P/R the most powerful and highest performance subwoofer that RBH manufactures.
