

Product Specifications

AW680
IN-WALL SPEAKER

Description:

The Ascensia Series AW680 in-wall speaker is designed to be used for both stereo applications and home theater applications. With Destination Audio's Aluminized Fiberglass Matrix (AFM) woofer, the AW680 is one of the best 6½-inch in-wall speakers offered. The AFM driver increases the efficiency of the speaker, resulting in higher volumes with less power, without sacrificing clarity or crispness. The ±3dB switch allows the tweeter to be adjusted for the dynamics of the room. The pivoting 1-inch nano-silk dome tweeter remains free of distortion. Construction of the ABS frame and baffle with a rigid aluminum grille are extremely sturdy. Both the grille and frame can easily be painted in any color for a perfect integration into any decor. Quick install brackets are available to ease installation of the speaker, by working as a template.

Applications:

- Two-channel Audio
- Multi-room Audio
- Home Theater
- Pools, Spas, Hot Tub Rooms, etc.
- Outdoor Audio (with no extended contact with water)

Technical Information:

Model Number:	AW680
Series:	Ascensia
Woofer:	6.5" (165mm) Aluminized Fiberglass Matrix (AFM)
Tweeter:	1" (25mm) Pivoting Nano-silk with ±3dB Switch
Power Handling:	100 Watts
Impedance:	8 Ohms
