## OR820 OUTDOOR ROCK SPEAKER

### Description:

Like most people, you probably enjoy great sounding audio inside, but you know if you take your speakers outside, they're sure to be ruined by the rain, snow or the blazing sun. Adding music to your outdoor entertainment brings it to a whole new level. Imagine having your favorite music while you barbecue, swim in the pool, relax on the patio or work in the yard. The Destination Audio weather resistant rock speaker is not affected by the outdoor elements and delivers excellent stereo sound. Are you looking for durability without sacrificing sound quality? Then Destination Audio's outdoor rock speaker is the solution. These speakers rival the performance of home speakers, and are designed to deliver high quality sound in the outdoor environment. The dual voice coil design gives you stereo sound from a single rock speaker. It cranks out prominent bass with clean and crisp mid-range and treble from an 8-inch polypropylene woofer and a 1-inch polyurethane dome tweeter. Destination Audio's rock speaker is available in granite, sandstone and brown.

### Applications:

- Two-channel Audio
- Multi-room Audio
- Patios, Pools, Spas, Hot Tubs, Etc.
- Outdoor Audio
