

DESTINATION AUDIO

CS500C CENTER CHANNEL SPEAKER

THIS PRODUCT HAS BEEN DISCONTINUED AUGUST 2009

The CS500C center channel speaker is the perfect companion for the CS500T tower speakers and the CS500 bookshelf speakers. These speakers have been sonically matched to provide the ultimate performance in home theater. The CS500C comes with a pewter baffle. However, the pewter baffle can be removed and replaced with a rosewood, cherry or black baffle. This provides great flexibility when it comes time to redecorate the room, or relocate the speakers. Just change the baffle on the face of the speaker, and it fits with the new decor.
