WM30 ON-WALL SPEAKER

REDEFINING THE WAY YOU EXPERIENCE SOUND.™

RBH Sound M Series On-wall Speaker

RBH's award-winning sound is now available in the innovative M Series high performance on-wall speaker. The innovative M Series speaker features RBH Sound's proprietary aluminum cone technology and is designed to complement high definition flat-panel televisions and monitors with high definition audio. Black-brushed, high strength extruded aluminum enclosures look phenomenal and are used to enhance the performance of the M Series speakers. Top off the look with black fabric grilles to match nearly every decor and flat-panel combination.

The WM-30 model includes a wall-mount bracket and hardware. The wall-mount bracket allows the speakers to be mounted either vertically or horizontally. Mounted on the wall, the WM-30 is a mere 3¼-inches deep and exemplify the perfect marriage between performance and aesthetics. Both models are available in black hairline-brushed aluminum; also included is are black fabric grilles to match virtually any flat-panel display and decor.

The M Series on-wall speakers' unique design coordinates seamlessly with flat-panel televisions and monitors.

The WM-30 is precisely engineered to deliver an incredible audio experience; in addition, with its hairline brushed black aluminum exterior and removable black cloth grille, these on-wall speakers are designed to compliment virtually all flat screen displays. The driver complement of the WM-30 consists of dual passive and dual powered 4-inch aluminum cone woofers and a 1-inch soft dome tweeter for excellent acoustic detail and resolution, they are equally adept at reproducing demanding musical sequences and life-like special effects. Regardless of room size, these on-wall speakers remain virtually unobtrusive measuring mere 3¾-inches in depth, while offering interchangeable mounting options and convenience.

The included wall-mount bracket allows the WM-30 to be quickly installed in either a horizontal as a center or vertical position for left, right and surround channels. The WM-30 is the perfect answer for home theaters and media rooms where, high performance sound is needed.

WM-30 On-wall LCR Speaker
