

PREMIUM OUTDOOR SOUND TOUGH REALISTIC CONSTRUCTION

Shaped and painted
Aluminum Grille

UV Treated Thick
Poly Resin Housing

Weather proof 8in DVC
with Coaxial tweeter

Your outdoor landscape and gathering areas can be enhanced with unobtrusive R8 Rock speakers providing distributed full range single-point stereo sound.

Easy low-voltage installation, impressive power handling and strong bass to fill your outdoor areas with rich sound. Combine with RBH MC-6AW for complete party fun!

R8 ROCK SPEAKER

The weather-sealed R8 Rock Speaker cranks out prominent bass with clean and crisp mid-range and treble. Built with the quality and fidelity RBH Sound is known for, the R8 features a robust 8in woofer made of a durable Dual Voice Coil (DVC) Polypropylene cone woofer which houses a 1-inch coaxial Polyurethane dome tweeter. The R8 single-point stereo outdoor rock speaker is available in Granite or Sandstone finishes featuring the look and feel of natural rocks. These high-quality, durable rock speakers look great around the pool, pond and even hidden amongst garden plants.

OUTDOOR-SERIES Attached and Landscape

- UV treated thick Poly-Resin housing is very durable and reduces resonant frequencies resulting in clear, full-range sound.

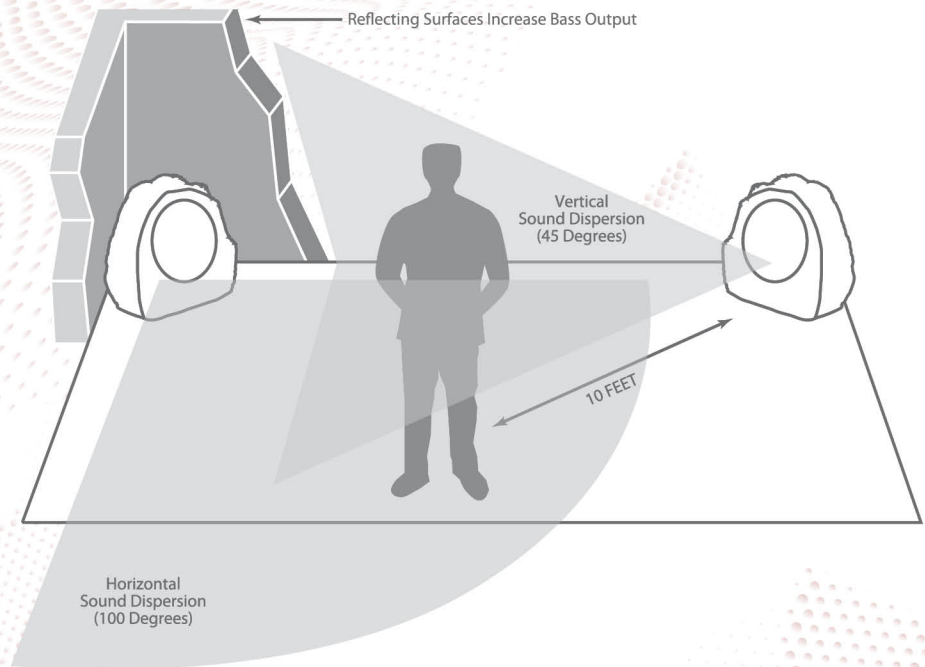

- All hardware parts are made from corrosion resistant materials

*10 Year Limited Warranty (with registration) from date of purchase to be free from defects and workmanship. For more information contact your RBH dealer or check our website.

Speaker Placement

R8 outdoor rock speakers are designed to be placed on the ground with the grille facing the listening area. Speaker drivers are angled upward to provide proper vertical sound dispersion for listeners standing 10 feet or more away. Sound coverage in the horizontal plane is 100-degrees. Too great a distance between any two speakers will create a dead spot. When in doubt use additional speakers to ensure adequate sound coverage.

Model	R8
SYSTEM TYPE	Single-Point Stereo Outdoor Rock Speaker
FREQUENCY RESPONSE	50Hz-20kHz ± 3dB
SENSITIVITY <small>(2.83V @ 1 Meter)</small>	90dB
