UNRIVALED

HIGH POWER LOUDSPEAKER AMPS

STATE OF THE ART CLASS D AMPLIFICATION

Custom meets best in class! The Alpha amps are built to last and include some of the highest quality Class D amplification for powerful efficiency!

RBH Alpha Amplifiers offer flexibility, durability, and nothing but the highest quality components for a look and feel that is worthy of the name UNRIVALED.

UNRIVALED ALPHA AMPLIFIERS

Amps, the workhorses. Be it high-end, high-output "wow!" inducing home theaters or a special place to immerse yourself into an experience as true-to-life as possible. Settle into the sweet spot, close your eyes, be there, see it live in your mind's eye, and drift from reality for a while. We at RBH know what that's all about. Introducing the "Alpha" series customizable amplifiers. We will build the amp you need to get the job done and put you in your happy place when you fire that baby up. We will have a few of the most standard amp configurations on the shelf, ready to go. If you don't find what you need as standard stock, we will build you one. 2-channels at 200W 8-Ohms for your speakers and 2000W 4-Ohms for a sub? Done. 200W 8-Ohms x 10 channels? Okay. 2000W 4-Ohms x 3? Yup. You get the idea. We can make anything from 2 to 16 channels in several mixable power and impedance configurations to power individual speakers, subs, or combos. Maybe you need separate bass and tweeter power at different impedances for serious 2-channel speakers. Or you need multi-zone or just have to pump a couple of big subwoofers. Whatever is required, let us know and we'll work with you. We just made your custom installation even more custom.

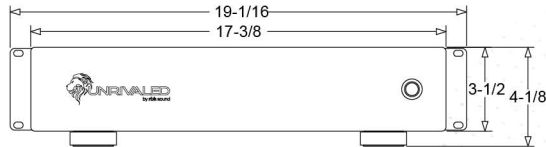

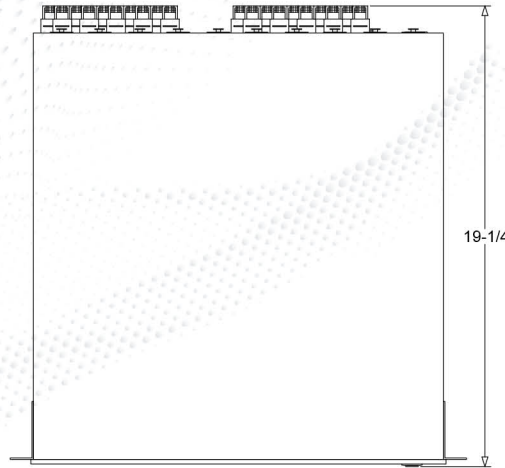

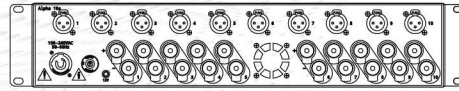

UNRIVALED ALPHA AMPLIFIERS

- Available 2-16 channels of amplification ranging from 140 Watts to 2000 Watts
