PREMIER IN-WALL SPEAKERS HIGH OUTPUT DUAL 8in LCR SET

Your custom installed Premier 821-I and Premier 821-CI whole theater LCR and surrounds set are sealed-cabinet reference speakers. Discreet yet controlled, accurate, high power handling.

When room aesthetics are important, but uncompromised, high output performance is required, the Premier 821 and Premier 821-CI team will not disappoint. Dynamic, capable and elegant.

Premier 821-I | 821-CI

The Premier 821-I and 821-CI have performance characteristics very similar to their larger Premier 831-I model sibling with the visual benefit of a smaller footprint. The Premier 821-CI employs two 8-inch aluminum cone woofers and our largest AMT tweeter in an MTM driver alignment. It is capable of producing reference-level dynamic range with ultimate fidelity in large home theaters or listening rooms. Combine with our In-wall Subs for an impactful, exciting total theater experience.

Premier Series IN-WALL Speaker

- Proprietary damped, aluminum drivers
- Heavily braced, HDF cabinet built in USA, sized to fit between 16" OC wall studs or on-wall.
- Tweeter protection circuitry is incorporated to prevent driver damage if over driven
- multiple options in the SI series are designed for wide range of requirements and installations
- series options include in-wall and on wall

*Limited 10 Year Warranty (with registration) from date of purchase to be free from defects and workmanship. For more information contact your RBH dealer or check our website.
