

821-CW

Premier series

rbh Premier product

PREMIER ON-WALL HIGH-OUTPUT CENTER CHANNEL!

Your larger theater requires a commanding center channel! The RBH Premier 821-CW is the solution when you demand nothing but the best.

From the ease of the french cleat system to the clean look of the fabric grilles, the Premier 821-CW will impress with ease of installation and stylish finish for that bold sound and minimalistic look.

Premier 821-CW

The Premier 821-CW has performance characteristics very close to their larger 831 model siblings with the visual benefit of a smaller footprint. The Premier 821-CW uses two 8-inch aluminum cone woofers and a large high-quality AMT aero-striction tweeter in a MTM driver alignment and is capable of producing reference level dynamic range with ultimate fidelity in large home theaters or listening rooms. Combine this high-output center channel with the RBH Premier 821-W for an extremely dynamic full surround theater system.

For ultimate impact check out the RBH S and SI Subwoofer models to complement and complete your dream home theater that will leave you, your family and guests in awe.

On-Wall Premier Series

- Black anodized reference aluminum drivers housed in cast aluminum baskets

- Provides timbre matched options for multi-channel sound across all freestanding, bookshelf, on-wall and in-wall products in the SF, SV or SI-Series

- Cabinet made in USA of High Density Fiberboard (HDF)

- Available in satin black or white

*Limited 10 Year Warranty (with registration) from date of purchase to be free from defects and workmanship. For more information contact your RBH dealer or check our website.
