

821-TW

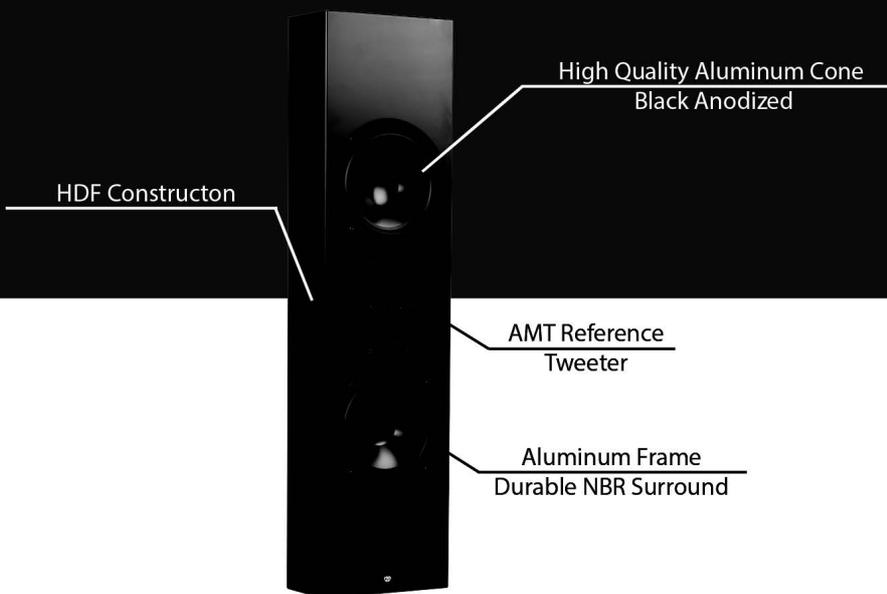

Premier series

rbh Premier product

## PREMIER ON-WALL

### DYNAMIC L/R and SURROUNDS!

Your ultimate home theater requires versatile, impactful Left, Right and Surround speakers for the complete immersion experience

Top and bottom French cleats on the Premier 821-TW enable secure, fast and simple installation you can depend on. You can have your high-impact, ultimate theater installed in minimal time

# Premier 821-TW

The Premier 821-TW has performance characteristics very close to their larger 831 model siblings with the visual benefit of a smaller footprint. The 821-TW uses two 8-inch aluminum cone woofers and a large high-quality AMT aero-striction tweeter in a MTM driver alignment and is capable of producing reference level dynamic range with ultimate fidelity in large home theaters or listening rooms. Combine this high-output left/right or surround channel with the RBH 821-CW as center channel for an extremely dynamic full surround theater system.

For ultimate impact check out the RBH S and SI Subwoofer models to complement and complete your dream home theater that will leave you, your family and guests in awe.

## On-Wall Premier Series

- Black anodized reference aluminum drivers housed in cast aluminum baskets

- Provides timbre matched options for multi-channel sound across all freestanding, bookshelf, on-wall and in-wall products in the SF, SV or SI-Series

- Cabinet made in USA of High Density Fiberboard (HDF)

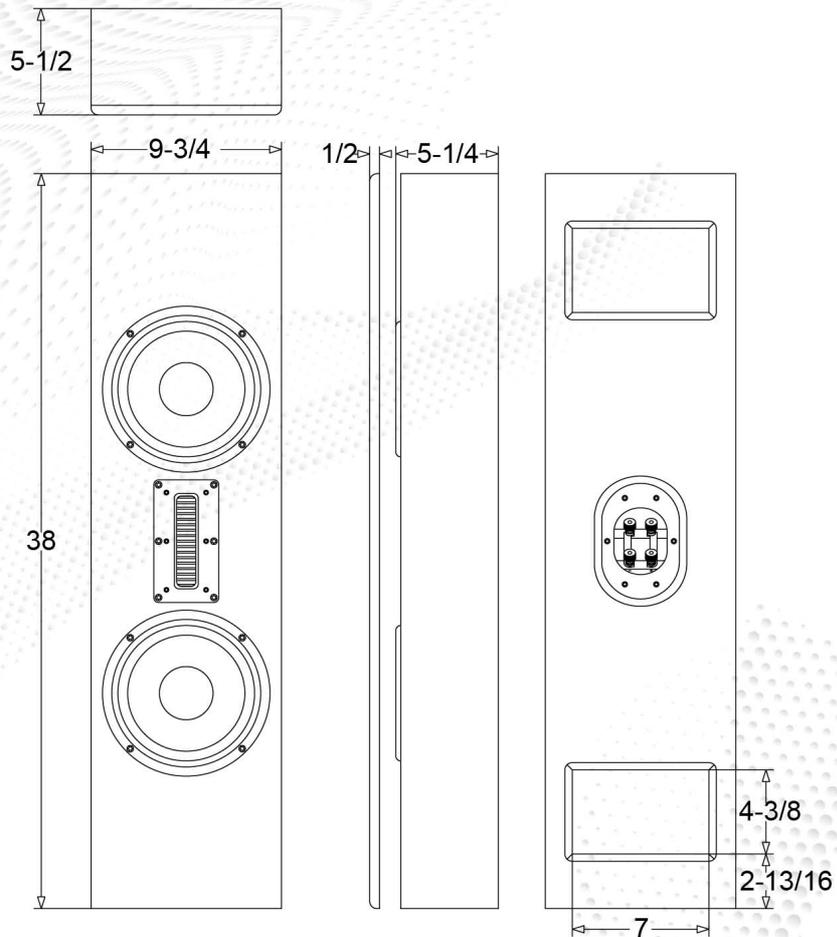

- Available in satin black or white

\*Limited 10 Year Warranty (with registration) from date of purchase to be free from defects and workmanship. For more information contact your RBH dealer or check our website.
