ROBUST POTENT ON-WALL EXTREME DYNAMIC VERSATILITY

If you crave the ultimate hi-fi cinema speaker, but prefer the extra 'slam' of extended mid-bass performance in your theater, this thinner, 5 inch deep variant of the Premier 841-C is for you!

Inherently designed for ultimate home theater performance with a little added attitude, this thin, hanging cabinet works great behind acoustically transparent screens and for whole-room installs.

Premier 841-W

The Premier 841-W on-wall speaker has performance characteristics similar to the lauded larger floor standing RBH model 8300 with the benefit of reference level dynamics and precision, mounted on-wall. The Premier 841-W has four 8-inch aluminum cone woofers and a large high-quality AMT aero-striction tweeter in a MMTMM driver alignment. It is capable of producing high-level, accurate, wide-range output with ultimate fidelity in large home theaters or listening rooms. The flexibility of the 841-W either in room or behind acoustically transparent screens and it's easy mounting via French Cleats makes large theater installations a breeze. Combine with the Premier 841-CW as center channel to complete your amazing reference theater.

For ultimate impact check out the RBH S and SI Subwoofer models to complement and complete your dream home theater that will leave you, your family and guests in awe.

On-Wall Premier Series

- Black anodized aluminum RBH proprietary 8 inch drivers housed in cast aluminum baskets

- Provides timbre matched options for multi-channel sound across most freestanding, bookshelf, on-wall and in-wall products in the RBH family

- Cabinet made in USA of High Density Fiberboard (HDF)

- Available in satin white or black

*Limited 10 Year Warranty (with registration) from date of purchase to be free from defects and workmanship. For more information contact your RBH dealer or check our website.
