

Nemesis Mk II

50th Anniversary series

**rbh** freestanding subwoofer

Walls filled with RBH  
\*Granular Acoustic  
Damping System  
G.A.D.S. (patent pending)

**2400 WATTS OF O..M..G!**

**DUAL 12" HEAVY DUTY BASS DRIVERS**

You have to experience our 50th anniversary dual 12" subwoofer in a cabinet so inert it almost defies physics! Clean, powerful, deep bass output down to 20Hz will rattle your soul.

Setting a new benchmark for performance vs size. Up to 2400W RBH DSP amplification and our G.A.D.S damping system result in truly spectacularly, articulate bass previously thought not possible.

# Nemesis Mk II

Your Nemesis? Yes and No. Yes. This needs to be your Nemesis Mk II subwoofer to bring your theater or dedicated listening room or, heck, your entire house, to new heights, and by that we mean depths, of low frequency sonic performance. No, this Nemesis will not cause your ruin and downfall, but it will pull you into the ruin and downfall of the action you are viewing with such impact and realism your goosebumps may have their own. That rush that makes the hair on the back of your neck take notice and try to convince you to dive under a table. It's all okay. It's RBH's 50th anniversary welcoming you to have a good time! Two 12inch RBH long-throw anodized aluminum cone woofers. 2400 watts of powerful motivation to spur those twins into action. The hexagonal diamond shape of the enclosure significantly reduces standing waves. \*G.A.D.S. technology in every exterior wall makes the enclosure extremely inert with near zero resonances.

## 50th Anniversary Series

- Available in black or silver reference aluminum cone drivers

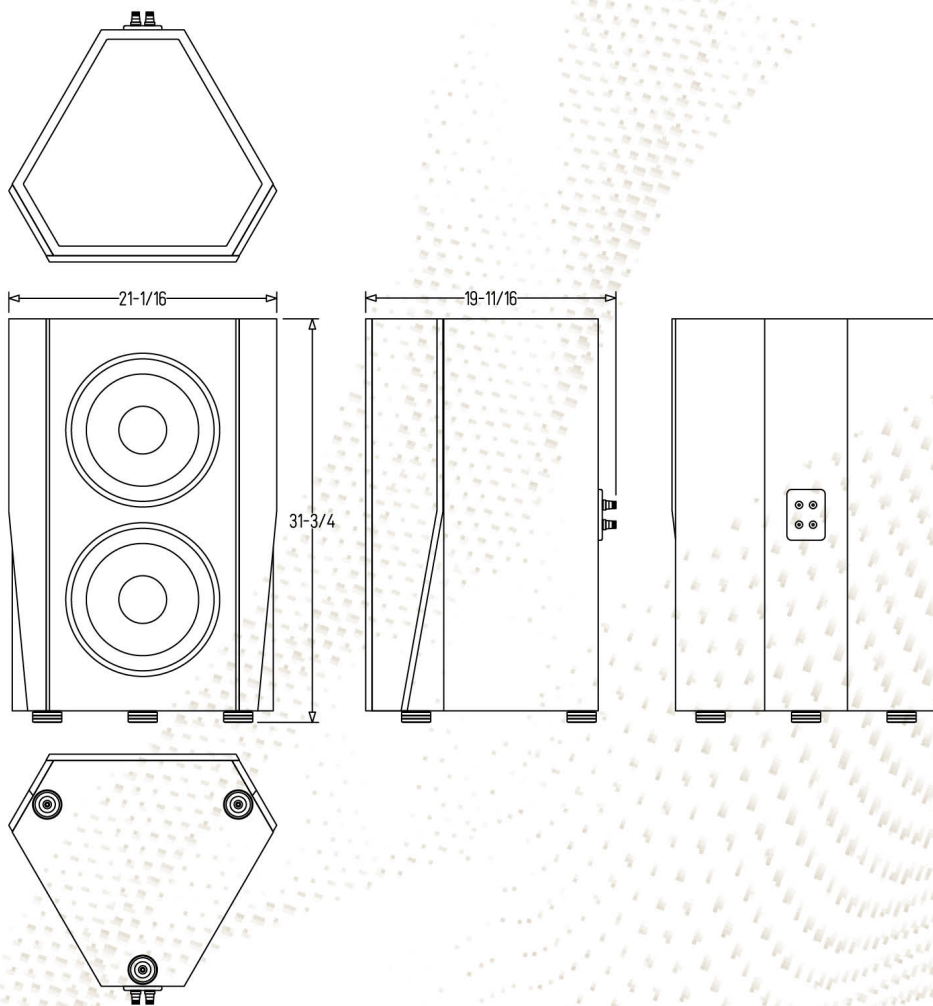

- Provides timbre matched options for multi-channel sound across all cabinet products in the RBH Sound family

Individually hand assembled and tested. Cabinet made in USA of High Density Fiberboard (HDF) and high density polymer
